Paper to Electronic			Document Control Solutions	Discount % Determined by Volume & Region	
Step	Part Number	Description		Unit	Price
Prep	P.1	Standard Prep using Separator Sheets (<5/fldr)	Perform removal of all staples, bindings, rubber bands etc. and insert slip sheets denoting document breaks. Includes special services of file purge, mending torn or deteriorated media, segregation of documents to off-site storage or for indexing or classification of obvious document types.	per hour	\$28.00
	P.2	Standard Prep using Barcode Labels (<5/fldr)	Same as above plus incorporate applying a barcode label for up to five (5) obvious documents per folder. Barcode to be applied to first page of an obvious doc type in upper right 16 square inches of lead page per document. (See CB Price list for label cost.)	per hour	\$28.00
	P.3	Complex Doc Prep Barcode & or Sep (6>/folder)	To perform either service of insertion of doc separator sheet or applying a barcode or both when there is (6) obvious documents or more. Also use this same rate if hierarchical document classes need to be determined. Usually limited to 4 levels of hierarchy.	per hour	\$28.00
	P.4	Add for Doc Identification	When using barcode labels and to perform document identification a specific degree of expertise is required. Rate also applied when it is required to perform a 3rd party audit to determine missing documents per folder.	per hour	\$2.15
	P.5	Add for Auto DPI Adjust	Add cost to preparation fees above if scanner ID sheets must be added to perform automatic scanner adjustments to control scanner settings. (Rare Requirement)	per hour	\$2.15
	P.6	Add for Shredding	To destroy with a shredder a cubic foot of boxed records.	per cubic foot	\$6.50
	P.7	Add for Box Inventory	To inventory boxes received or to inventory boxes to be shipped to an archive location or distant facility.	per box	\$1.43
	P.8	Deduct for when Quick-Filer™ used in Document Prep.	If DCS's patented Quick-File™ index system is used in document preparation phase deduct this amount from the per hour fees	per hour	-\$2.85
	P.9	Folder to Folder Drops	To move docs from existing folder to a new folder. To identify with barcode specific folders of information that may need to be indexed for a future image capture job. Includes using a barcode label to id doc types within each folder.	est. per folder	\$1.43 to \$7.15 range
	P.10	Doc Tracking	Perform the task using portable barcode wands to create a database of folders and documents linked to a specific box number of vessel code.	per folder	\$0.50
	P.11	Doc Reassemble	Reassembling the documents into the original or comparable bindings. Staples returned into the original documents, and documents placed back into bindings or fasteners as they were originally found.	per hour	\$28.00

Document Control Solutions			Release & Management Fees		
Paper to Electronic			Discount % Determined by Volume & Region		
Step	Part Number	Description		Unit	Price
<b>Release</b>	R.1	CD-ROM Mastering (2)	Perform the task of creating pair of CD-ROMs containing the flat indexes and images. One for transport and one for archival purposes. Media included.	per set of CD	\$35.72
	R.2	Optical Disk	Perform the task of creating one Optical Disk containing the flat indexes and images. Media included.	per platter	By Quote
	R.3	DAT Tape	Perform the task of creating one DAT tape containing the flat indexes and images. Media included.	per tape	\$357.15
	R.4	Blowbacks	At client's request, to create printed documents from images, commonly called "blowbacks"	per image	\$0.086
	R.5	Bates Stamp	At client's request, to apply unique number sequential to each document prior to image scan, so it appears on both hardcopy and image. Special considerations can be made to apply number after scan and digitally write serial number to image header.	per stamp	\$0.029
<b>Manage</b>	M.1	Project or System Analyst	Perform system analysis of the imaging requirements to define overall system function and determine the most cost efficient manner to implement the imaging system and determine if any custom data release scripts are required.	per hour	\$214.30
	M.2	Programmer	Perform special coding to set parameters, forms, data exports, data imports, create database schemas and to support the needs determined by the project team.	per hour	\$150.000
	M.3	Project Management and Production Support	Perform the role of project manager and provide overall project planning management, administration, communication, coordination and control staff. Also perform the role of project consultant and provide overall project production planning, coordination, communication and database delivery services.	per hour	\$142.86
	M.4	Integration Services & Technical Services	Perform as technical consultants and will link the data items with the full text record created via OCR and merge the resulting database with the corresponding images and build into a application ready load file. At client's request, provide consulting; data manipulation, in-house operational supervision of software system related work.	per hour	\$178.58
	M.5	Records Analyst, Media Analyst & RMS or Certified Records Manager	Identifying records series to specific retention codes. Space planning for physical doc storage systems. Media Storage System Design. Consultation regarding Records Management policy, i.e. records retention schedules, hierarchy definitions, citation identification for retention schedules.	per hour	\$214.29
